

PSR-4600

Thank you for purchasing the Yamaha PSR-4600 VST instrument.

This VST release is the complete sound, drum and sound FX set from the PSR4600. One of those keyboards that we played back at school in the 80s but could never afford! The keyboard has a 12bit AWM, 2 operator FM sound source. Every sound and drum hit has been multi-sampled at high quality to copy the 4600 as closely as possible.

Every included sound has been meticulously sampled, stacked and mapped across the keyboard. You can manipulate the sound envelope, adjust the filter sweep using the Hi Pass or Low Pass options, change the poly mode to monophonic and add Portamento if required. Effects are also included in version 2.

NOTE: Please place the included fonts into you 'FONTs' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plug-in folder. When you then start your DAW, it will automatically be integrated within your setup.

This instrument is now VST 2 & 3 ready and available for Mac users.

Here is a short video showing how to get up & running quickly...

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@retrobeat.co.uk or find us on YouTube & Facebook as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
