## Volume II VSTi

Thank you for purchasing the Depeche Mode II VST instrument. It has been created from the popular Depeche Mode Sample II Pack which derives from many hours of sifting through original multi-track studio recordings, sound design on synths used by DM and sampling/editing to achieve the exact sound that you need to recreate authentic DM tracks, and the all new VST interface makes it much easier for those who have the ability to use VST instruments, but struggle with software samplers such as Halion & Kontakt.

The VST instrument uses quality samples from the band and also contains powerful sound samples from other synths and equipment that was extensively used by Depeche Mode.

In this upgraded version, many of the sounds have been enhanced and tweaked, and the new GUI interface offers you more editing options with a Hi Pass filter, pitch control and a new effects engine.

**Please also copy the True Type Fonts from the 'Fonts' folder across to the Fonts folder on your computer so that the text in the interface will display correctly.**

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to [hello@beatmachine.co.uk](mailto:hello@beatmachine.co.uk) or find us on Facebook and YouTube.

*Finally, may we ask you to please not illegally share, duplicate or modify this instrument in any way. Illegal distribution will only jeopardize future releases. Thank you.*

# PATCH LIST

## Group List

- ✓ Depeche Drum Kit 1
- Depeche Drum Kit 2
- Enjoy Silence Bass
- Personal Bass
- Policy Bass
- Policy Piano Bass
