

PET SHOP BOYS 'HEART' VST

Thank you for purchasing the Pet Shop Boys - Heart VST Instrument.

Here we have the first of many Pet Shop Boys VST instruments. This VST contains all of the drum and sound samples to recreate the classic Pet Shop Boys hit 'Heart'.

Every included sound has been meticulously sampled, edited, looped and mapped across the keyboard. You can manipulate the sound envelope, pitch and control gain like on the actual synth. Reverb and pitch control are also included.

NOTE: Please place the included fonts into your 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, input your unique serial number and it will automatically be integrated within your setup.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
