

Thank you for purchasing this KN6000DM VST instrument.

The KN6000DM contains the complete 23 drum sets from the powerful Technics KN6000 keyboard. Different and highly useable drum & percussion samples all wrapped up in a simple interface so you can get programming your drum tracks immediately.

A Low Pass Filter is included along with Reverb.

**NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.**

**To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.**

**For Logic and Sierra users, please download the installation guide which includes the OSX Validation Tool. It can be found on the VST instruments page of the Beat Machine website.**

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to [info@beatmachine.co.uk](mailto:info@beatmachine.co.uk) or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*

***This is the actual KN6000 which was sampled. The drum kits are incredibly versatile and covers all genres of music production.***
