

Thank you for purchasing this Roland U20 Factory Set VST instrument.

The U20 Factory Set comes in two VSTs, Set 1 and Set 2.

The VST instrument 'Factory Set 1' contains 61 of the factory presets of the original synthesizer.

The VST instrument 'Factory Set 2' contains 66 of the factory presets of the original synthesizer.

Many thanks to Jeff Pobst in the US for sampling his U20 Factory Set to make this VST possible.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plug-ins folder. When you then start your DAW, it will automatically be integrated within your setup.

This instrument is now VST 3 ready and available for Mac users.

Here is a short video showing how to get up & running quickly in Windows. Further install instructions for both Windows & Mac users are in the text file with your purchase...
