

Thank you for purchasing this Synthwave 3 VST instrument.

This is the third Synthwave VST produced by Beat Machine.

In this superb new release you get even more superb Synthwave drum kits, basses, synths and pads for you to create great sounding 80s Synthwave tracks.

NOTE: Please place the included fonts into your 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

There is up to date information on the Beat Machine website for Mac users and Catalina users regarding installation and compatibility.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
