

# VST330 STRING SYNTHESIZER VSTi

Thank you for purchasing the VST330, a stunning collection of string synthesizers that will provide warmth and depth to any mix.

The VST instrument uses multiple high quality samples from the original synthesizers to create an authentic reproduction.

Every sound has been meticulously sampled across the keyboard. You can manipulate the sound envelope, pan and control gain like on the actual synth. If you want to adjust the cut-off and resonance of a sound, you can do this within your DAW using envelopes. The current software limitations prevents me from adding cut-off & resonance controls.

**NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.**

**To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.**

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to [info@beatmachine.co.uk](mailto:info@beatmachine.co.uk) or find us on Sound Cloud as Beat Machine Drum Sample Packs.

Finally, may we ask you to please not illegally share, duplicate or modify this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.

## STRING MACHINES INCLUDED:

1. Roland VP-330 String Synthesizer
2. Eminent Solina String Synthesizer
3. Freeman String Synthesizer
4. Logan String Synthesizer
5. Oberheim OB8
6. Oberheim OBX
