# VINCE CLARKE VST

Thank you for purchasing this Vince Clarke Volume 1 VST instrument.

This is the first volume of the Vince Clarke VST collection. It comprises of 43 patches and two full drum kits.
You have all of the sounds and drums to create two of Vince's songs to accuracy. 'Ship of Fools' and 'Situation', plus many other *Vincey* sounds and percussion hits to emulate the synth genius' awesome sound.

Every included sound has been meticulously sampled/created and mapped across the keyboard. You can manipulate the sound envelope and control gain like on the actual synth.
A Low Pass Filter is now included along with Reverb.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

For Logic and Sierra users, please download the installation guide which includes the OSX Validation Tool. It can be found on the VST instruments page of the Beat Machine website.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
